

## Section A3 Spinnaker Poles & Jockey Poles - Complete

### A3.1 Spinnaker Poles

Spinnaker Poles are supplied complete and ready to use. Standard poles are made from a fully anodised aluminium tube, with external pull cords, with an option of a bridle, and with an option on type of pole-ends - see below for specifications.

**Variations** Spinnaker poles are normally one of the following types.

- Type A - Beak to Beak** With a beak-type fitting at either end, this pole is the standard for end-for-end gybing. Attachment to the mast is by means of a ring fitting on the mast.
- Type B - Bayonet & Beak** For larger spinnaker poles, dip-pole gybing is necessary, and the bayonet & beak system is the optimal solution to enable this.

Alternatively, on request, Allyacht Spars Australia will supply lightweight tapered alloy poles, and also carbon fibre poles. Contact an Allyacht Spars Australia representative to specify your requirements.

DESCRIPTION	POLE DIA (mm)	TYPE A BEAK TO BEAK			TYPE B BAYONET & BEAK	
		<u>NO BRIDLE</u> PART NO.	<u>WITH BRIDLE</u> PART NO.	LENGTH (mm)	PART NO.	LENGTH (mm)
Spinnaker pole S60	60	013.SS060-11	NA	to 3760	NA	NA
Spinnaker pole S72	72	013.SS072-12	013.SS072-12B	to 5280	013.SS072-32	to 5395
Spinnaker pole S84	84	013.SS084-12	013.SS084-12B	to 5330	013.SS084-32	to 5445
Spinnaker pole S96	96	013.SS096-12	013.SS096-12B	to 6360	013.SS096-32	to 6495
Spinnaker pole S99	99	NA	NA	NA	013.SS099-31	to 6475
Spinnaker pole S111	111	NA	NA	NA	013.SS111-22	to 7545
Spinnaker pole A60	60	NA	013.115	to 3500	NA	NA
Spinnaker pole A80	80	NA	013.116	to 4200	NA	NA
Spinnaker pole A100	100	NA	013.117	to 5000	NA	NA

### A3.2 Spinnaker Pole System - Complete

This system comes complete with Spinnaker Track for the mast, Spinnaker Pole Slider, single purchase Pole Adjusting Tackle, Pole Stowage Loop, and an option of including a complete Spinnaker Pole. Designed specifically for the Bavaria range of yachts, this system can nevertheless be used on or adapted for many other boats. The system is based on a Spinnaker Pole S96 without bridle (Part No. 013.SS096-12). Note that the Part Nos. comprise all of the system components, but DO NOT INCLUDE fitting to the mast.

PART NO.	DESCRIPTION
013.036	Bavaria Spinnaker Pole System - including pole
013.036.1	Bavaria Spinnaker Pole System - without pole

### A3.3 Jockey Poles

Updates for this section: 26/08/05; 01/02/06; 21/04/06

Jockey poles are supplied with a standard Jockey Pole fitting at the inner end, and at the outer end, a beak fitting with an external pull cord. Support wires are an optional extra.

DESCRIPTION	POLE DIA (mm)	LENGTH (mm)	PART NO.
Jockey pole AYS 50	50	to 1800	013.210
Jockey pole AYS 60	60	to 2500	013.212
Jockey pole AYS 80	80	to 3000	013.213

### A3.4 Prodder Poles

Updates for this section: 29/06/06

Prodder Poles are used to fly asymmetrical spinnakers and screechers. The most common Prodder Pole, set up to suit catamarans in the 30 to 40 foot range, is as listed below. However this can be varied to suit the size and needs of different boats. Note that this does not include a tack line block nor bridle wires - these must be sized and ordered separately.

DESCRIPTION	POLE DIA (mm)	LENGTH (mm)	PART NO.
Prodder pole AYS 80	80	to 2000	013.PROD80
